The State of Hawaii in accordance with the provisions of Section 402(b) of the Federal Water Pollution Control Act has submitted to the Administrator of the Environmental Protection Agency a description of the program it proposes to establish and administer under State law for the purpose of issuing NPDES permits for discharges into navigable waters under its jurisdiction. If the Administrator approves the State program before the proposed permits described herein are issued, these permits may be issued by the State of Hawaii after consideration of all comments received in response to this joint-State-Federal public notice.
